

20MWh Swedish power distribution and energy storage cabinet

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Alfen has extensive experience in energy storage and not only develops and supplies the battery system, but also offers a 10-year service agreement for monitoring and maintenance to ...

Alfen is supplying a 20 MWh battery storage system to Vattenfall in Uppsala, Sweden, to alleviate grid congestion and support flexibility markets.

Just last month, Stockholm unveiled Northern Europe's largest lithium-ion storage array - 150 connected containers storing enough energy to power 45,000 homes during winter blackouts.

Energy storage system developer Alfen has been selected by Swedish power company Vattenfall to deploy a 5MW/20MWh system in its home country.

Three months after its first Battery Energy Storage System (BESS) acquisition in Sweden, Monsson has secured a second project--a 20MWh facility in Härryda, western Sweden.

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage cabinets also adhere to safety and quality ...

Ingrid Capacity is the leading actor in energy storage in the Nordic region. With flexible resources and storage, the company is creating an optimized and resilient electricity system with a ...

Swiss-headquartered independent power producer (IPP) Axpo has brought its first BESS project in Sweden online, a 20MW/20MWh system in Landskrona.

The new 20MW/20MWh lithium-ion based battery storage facility will be used to help balance electricity supply in the region and has been connected to the grid by Landskrona Energi, a ...
