

# Chile hybrid energy storage power station

Enel Chile has launched the Don Humberto Energy Plant, an 81-MW solar farm with a 67-MW battery storage system in the Santiago Metropolitan Region. The plant will generate 188 GWh of clean ...

November 24, 2025 - Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system (BESS), part of an industrial-scale ...

Greenergy has held this Thursday the ceremony of the first stone for the Monte &#193;guila hybrid solar power and storage plant, located in El Cabrero, in the Biob&#237;o region, one of the phases ...

Enel Green Power Chile has started the construction of the 205 MW Las Salinas battery energy storage system (BESS), part of a hybrid renewable plant combining solar, wind, and storage ...

Chilean energy giant Enel Chile has begun commercial operation of its cutting-edge hybrid power plant, Don Humberto, which combines solar energy with an innovative BESS (Battery Energy ...

The Spanish multinational GES, part of CL Grupo Industrial, has confirmed the construction of a hybrid project that will combine solar energy photovoltaic, wind and battery storage.

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

The Don Humberto Energy Plant marks a milestone for Chile's renewable energy sector. Enel Chile's investment in this hybrid technology strengthens the national grid and reduces ...

In August 2022, commercial operations began at what Enel Chile described as the nation's first hybrid renewable power plant on an industrial scale. Located in Antofagasta, the project ...

The Don Humberto project, combining 81 MW of bifacial solar panels and an energy storage system, begins operations, strengthening peak demand management and reducing CO2 emissions.
