

Which companies have solar carports?

Several companies have solar carports. For instance, Whole Foods constructed 325 kW of solar power at their site in Brooklyn, NY, covering their entire parking lot in solar panels. Additionally, Lockheed Martin Mission Systems and Training (LM MST) have had solar carports installed at their facility in Clearwater, FL.

What is a residential solar carport?

A residential solar carport is a dual-use structure that combines the carport concept with a ground-mount solar panel array. It provides ecologically-friendly power while protecting your car from the elements.

What is a photovoltaic carport?

A photovoltaic carport is another term for a solar panel carport. This type of carport can be built almost anywhere. You can have one at your home or in a large parking lot. It can transform any parking space into a renewable energy-generating tool. The word photovoltaic refers to the photovoltaic cells that generate energy from the sun.
