

Do photovoltaic panels have a 25-year warranty

How long does a solar panel warranty last?

The average warranty coverage from panel manufacturers includes 25 years of coverage for the equipment and manufacturer defects and 25 years of guaranteed maximum efficiency losses. Most manufacturers don't handle installations as well, so they don't typically provide labor or roof leak warranties.

What is a solar panel product warranty?

Also known as a materials warranty, a solar panel product warranty covers the integrity of the equipment itself. If any of your solar panels have a defect or mechanical issue, if they break or fracture, or experience unreasonable wear and tear, that's when your product warranty comes into play.

Which solar panel warranty is best?

Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts. Based on our ranking system, Maxeon has the strongest overall warranty, with Demand Construction and CertainTeed Solar close behind. Why are solar panel warranties important?

What are the different types of solar panels warranties?

These warranties come in two main types: Product Warranties, which cover physical defects or failures in the panels, and Performance Warranties, which guarantee your panels will maintain a certain level of energy output over time. Why does this matter?

Types of Solar Panel Warranties
