

Hospital-grade IP55 outdoor photovoltaic cabinet for fast charging

Special Features IP55 grade cabinet is suitable for outdoor environment High power charging/discharging capability to keep the micro-grid stability Small foot print and high energy ...

AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C& I loads.

Features Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, AZE manufactures custom NEMA 3R enclosures.

Find high-quality IP55 outdoor battery cabinets for energy storage. Waterproof design and customized options for reliable performance in tough environments.

Based on a lithium iron phosphate battery system, the ESS outdoor cabinet serves as a comprehensive complete solution for stationary energy storage.

Featuring an IP55/IP65-rated enclosure, it offers excellent resistance to water, dust, and corrosion, making it ideal for solar energy, wind-solar hybrid, off-grid, and industrial backup power systems.

Pre-wired outdoor enclosure for up to 4 SIMPO 5000 modules. IP55 rated, C4M anti-corrosion protection, and easy plug-and-play installation for harsh environments.

55kWh air-cooled energy storage cabinet with IP55/IP66 protection, designed for industrial and commercial photovoltaic energy storage applications.

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

These cabinets are UV-resistant aging, corrosion-resistant, acid and alkali resistant, wind-resistant, waterproof, and shock-resistant, with a more robust and durable structure.
