

# Intelligent Folding Container for Fire Stations

Our containerized fire training structures can serve a wide range of industries requiring fire and safety training including airline, military, oil and gas, petrochemical, fire departments, and training academies.

Fire departments can't simulate a fire using just any building, as it wouldn't be safe or economical. Here's a few benefits in using shipping containers to build custom firefighter training structures.

In this blog, we'll explore how fire departments are using shipping containers, why they're an ideal resource for fire safety and rescue personnel, and how their key features support critical training needs.

With coast-to-coast service coverage and competitive wholesale pricing, we make it easy for government departments to obtain the right container at the right time.

Price and other details may vary based on product size and color. Need help?

Husky &#174; Portable Containment continues to set the bar for the folding frame tanks and create the easiest to use, most durable and safest firefighting products on the market today!
