

# Is it illegal to install photovoltaic panels on the river bank

Are solar panels illegal?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies.

Are solar panels a viable option?

However, some states still make installing solar panels functionally impossible by creating laws with "reasonable restrictions," such as increased taxing, energy caps, or even billing solar panel users. Combine these laws with a lack of incentive programs, and solar panels are not viable for homeowners in many states.

Can solar panels save money on electricity bills?

Most homeowners would like to save money on their electricity bills. With solar panel technology, you can do just that. Using the sun's raw energy, you power your home and sell electricity to utility companies. Unfortunately, some states make this harder to achieve with restrictions on solar energy and its financing.

Are solar panels a good investment?

An alumna of the University of Pennsylvania, Roxanne is now an Oklahoma homeowner, DIY enthusiast, and the proud parent of a playful pug. Solar panels are a fantastic option if you're looking to save on electricity. Unfortunately, not all states will help you finance them.
