

Longi new photovoltaic panel models

What is Longi high-efficiency solar module?

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology, Mono Silicon Crystalline Technology has become a leading manufacturer and brand in the export and installation of monocrystalline silicon solar photovoltaic module.

What is Longi EcoLife solar?

The EcoLife series brings Longi's back contact technology to the residential solar market with panels that reportedly offer quicker system payback and reduced power degradation over time. Chinese PV module maker Longi has debuted its new EcoLife series of solar panels.

How much power does a LONGi Solar module produce?

The company said the 2,382 mm x 1,134 mm module offers 25.9% efficiency and 700 W power output, with a power density of 259 W/m². The temperature coefficient is -0.24%/C. Longi said the cells are manufactured using both low- and high-temperature passivation on the front side.

Why should you choose LONGi Solar panels?

High efficiency modules supplied by LONGi have been applied widely across the globe from grassland on high lands, deserts, water ponds to households. The solar modules benefit customers and local economies with high value advantages of greater efficiency, lower light degradation and higher reliabilities.

Learn how to choose solar panel longi models with high efficiency, durability, and value. Compare types, specs, and top models for your solar project.

Longi has unveiled a new solar module that utilises the company's proprietary hybrid interdigitated back contact (HIBC) crystalline silicon solar cell based on a full-size silicon wafer, and ...

Longi, the China headquartered solar PV solutions giant, has launched its latest Hi-MO X10 solar module series at an event held in Shanghai. The new modules use Longi's 2nd generation ...

LONGi High-efficiency solar Module, widely adopting PERC solar cells technology, Half-cut Module Technology and Bifacial PV technology, Mono Silicon Crystalline Technology has become a ...

Latest Price Trends and Models of LONGi Photovoltaic Panels in 2025 As of February 25, 2025, LONGi Green Energy has implemented a price adjustment for distributed generation ...

Back Contact (BC) Solar Technology Development White Paper At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell ...

The EcoLife series brings Longi's back contact technology to the residential solar market with panels that reportedly offer quicker system payback and reduced power degradation over time.

Longi new photovoltaic panel models

Chinese solar panel manufacturer Longi has introduced its new EcoLife series of solar panels at Intersolar. This series features the company's advanced back contact technology and is ...

Chinese solar manufacturer Longi unveiled a new PV module with 25.9% efficiency at the 2025 SNEC trade show this week in Shanghai, produced using both low- and high-temperature ...

As global solar installations surge by 18% year-over-year, one question keeps resurfacing: Why do industry leaders consistently choose Longi photovoltaic panels? With its record-breaking ...
