

Opposing solar power generation systems

A new report from the Sabin Center for Climate Change Law at Columbia University identified more than a dozen solar projects that encountered opposition from local conservation ...

Through an unrelenting crusade led by Dr. Ziegler to get the Navy to change its mind, the Navy finally relented and as a compromise, put a dual power system of chemical batteries and silicon ...

But the push to build utility-scale renewable energy projects is facing opposition from many rural residents and local governments. The most common ...

In this report, EPI reviews and summarizes key findings from this research in one place for the first time. We identify some of the major players involved in disinformation campaigns targeting ...

As countries have implemented energy-transition goals, local opposition to large-scale renewable energy has grown. This study provides an empirical evaluation of two perspectives for ...

Opposition to community and large-scale solar projects is building, as are disinformation campaigns aimed at undercutting them. Across the US, many mayors, state legislators, and ...

But the push to build utility-scale renewable energy projects is facing opposition from many rural residents and local governments. The most common objections are that energy projects ...

As the planet warms and climate disasters grow more costly, the U.S. has set a target to reach 100% clean energy by 2035, a goal that depends on building large-scale solar and wind ...

As more people turn to renewable energy, some wonder why there are objections to solar farms, which have many benefits. However, concerns have been raised about the potential harm to wildlife and ...

Despite broad public support for solar energy, local opposition to large-scale solar farms is on the rise across the UK, Europe and the US.

According to a report published by Columbia Law School's Sabin Center for Climate Change Law, between 1995 and 2023, nearly 300 renewable energy projects encountered significant ...
