

# Philippines new energy project with energy storage

Explore the Philippines' new solar project featuring cutting-edge battery storage systems, aimed at boosting renewable energy capacity and sustainability.

The ESS Act aims to create a clear national framework for the development, deployment, and commercialization of energy storage systems across the Philippines. These systems, including ...

The Department of Energy (DOE) of the Philippines endorsed 17 power generation projects to the National Grid Corporation of the Philippines (NGCP) in June 2025, highlighting the ...

The projects comprise a 40-MW battery energy storage facility at the Binga Hydroelectric Power Plant (Phase 2) and another 40-MW system at the Ambuklao Hydroelectric Power Plant.

MANILA, Philippines -- Vivant Energy Corp. (VEC) is moving forward with a P6.23-billion renewable energy project in Iloilo, aiming to bolster the stability of the Visayas grid through a hybrid ...

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy ...

A joint venture between Scatec and Aboitiz Power will begin construction on 80 MW of new battery capacity co-located with existing hydropower plants in the Philippines.

Meralco PowerGen Corp. (MGEN) and Korea Electric Power Corp. (KEPCO) are looking to expand their collaboration beyond solar energy into wind and energy storage systems to diversify ...

The project is the first phase of HANDPHIL's partnership with Lubelco and will involve the development of a 1-megawatt embedded solar photovoltaic system integrated with a battery energy storage ...

SN Aboitiz Power (SNAP), Scatec ASA's joint venture with Aboitiz Renewables, has reached financial close and is preparing for construction start of the 40 MW Binga (phase 2) and 40 ...
