

# Quantity of photovoltaic inverters and modules

How big is the solar PV inverter market in 2024?

By application, utility-scale installations accounted for 63% of the solar PV inverter market size in 2024, while residential is set to grow at a 7.6% CAGR through 2030. By phase, three-phase units led with 72% of the solar PV inverter market share in 2024; Single-phase is forecasted to post a 7.2% CAGR between 2025 and 2030.

What is a solar PV inverter?

A solar PV inverter is a power inverter that converts electricity in direct current (DC) output from a photovoltaic (PV) solar panel into alternating current (AC) at utility frequency. This can be used for residential and commercial electrical grids or by a local off-grid electrical network, such as microgrids.

How big is the PV inverter market?

The PV inverter market size is valued at US\$15.33 billion by 2025, from US\$42.54 billion in 2022, at a CAGR of 15.7% during the forecast period.

What is the global solar PV inverter market value?

The global solar PV inverter market reached a value of almost USD 8.45 billion in the year 2023. The market is further expected to grow at a CAGR of 5.0% between 2024 and 2032 and to reach a value of almost USD 13.13 billion by 2032. As per industry reports, the total global solar power capacity reached 1 terawatt (TW) in April 2022.

Only hybrid inverters that are DC-coupled to PV installations are included in the rankings. To view the full shipment rankings of top global manufacturers, as well as regional and product ...

Solar PV Inverters Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The Solar PV Inverter Market Report is Segmented by Inverter Type (Central ...

Photovoltaic inverters play a crucial role in overcoming this limitation by converting the direct current produced by solar PV modules into alternative current that can be fed into the electrical ...

The solar PV inverter market reached USD 8.87 Billion in 2025 & expected to grow at 5.00% CAGR between 2026 and 2035, to reach USD 14.45 Billion by 2035.

PV Inverter Market Size The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034. The paradigm shift toward the integration ...

Photovoltaic inverters play a crucial role in overcoming this ...

The global photovoltaic inverters market to reach USD 84.81 billion by 2034, expanding at a 18.53% CAGR during the forecast period 2026-2034.

# Quantity of photovoltaic inverters and modules

The global solar PV modules and inverters market is forecast to reach \$115.8bn by 2030, largely driven by the Asia-Pacific (APAC) region with its strong policy initiatives, ambitious renewable ...

Solar PV Inverters Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The Solar PV Inverter Market Report is Segmented by Inverter Type (Central Inverters, String ...

Advances in the PV industry also bring environmental and social sustainability concerns. These include use of critical and toxic materials in PV modules as well as the chemical pollution ...

Solar PV Modules and Inverters Market Size, Share and Trends Analysis by Technology, Installed Capacity, Generation, Key Players and Forecast to 2030 Powered by All the vital news, ...

The global solar module and inverter markets are on course to reach a combined \$115.8 billion by 2030, according to forecasts made by UK-based data analytics and consulting company ...
