

Russia new york electric grid

Ukraine saw a rare overnight lull in attacks on energy infrastructure after President Trump personally urged Russian President Vladimir Putin to pause strikes -- but the Kremlin said Friday the ...

A tent provided by the government to provide heat and electricity in Kyiv last month. Russia has devastated Ukraine's power grid this winter, the coldest in more than a decade.

"Normal life has disappeared": Russia's energy offensive plunges Ukraine into dark and bitter cold Russia's winter strikes have focused on Ukraine's energy infrastructure.

Three winters of Russian strikes on Ukraine's power grid have taught Oleksandra Kovalenko and her family how to live in the dark. When the lights go out, they turn to power banks, ...

Here's What the Law Says Russian missiles and drones have pounded Ukraine's energy grid in recent weeks
By Associated Press | Feb. 4, 2026, at 11:07 a.m.

Through attacks on Ukraine's power plants Russia has weaponized the most frigid winter in more than a decade, Michael Holtz writes.

Russia launched several cyberattacks that caused limited short-duration service interruptions in some cases. Physical attacks had more strategic impact, bringing the Ukrainian grid to the brink of collapse ...

Russia fired a barrage of drones and missiles at Ukraine on Saturday, killing 12 people and blasting its energy grid, leading to temporary blackouts across the country, officials said.

But the high-voltage grid was prepared to sustain the attacks, and damaged sites were quickly repaired. In December, Russia accepted that the old tactics were not working.

Russian missiles and drones have pounded Ukraine's energy grid in recent weeks. That has plunged people into frozen darkness in one of the country's coldest winters on record.
