

Sewage Treatment Plant Microgrid Outdoor Cabinet

All DER (engines, storage, CHP, PV solar, UPS) can be integrated into a hybrid microgrid that would provide the highest level of resilience and economic benefit to a Water or Wastewater Authority.

Space-saving: using door-mounted embedded integrated air conditioners can save space in the cabinet by not occupying any space, improving the available space, enhancing the top structural integrity, ...

In the event of an extended power outage, the solar and EnergyBlock systems work in conjunction with the treatment plant's diesel generators to create a local microgrid. Disconnected from the primary ...

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.

Upgrade to ESS-GRID FlexiO 500kW 1MWh outdoor energy storage with expandable DC and AC-side capabilities, perfect for microgrids, commercial, and industrial sites.

This project demonstrated that a microgrid at a wastewater treatment plant can operate without compromising water quality or negatively affecting plant operations.

The Laguna Wastewater Treatment Plant (LTP) microgrid project demonstrated an advanced microgrid at a large wastewater treatment facility that would provide increased reliability and resilience.

Our outdoor control cabinets have been specially developed for outdoor installation and offer reliable protection from the weather and frost. They can be placed directly next to the septic tank.

Orenco's AdvanTex ® AX-Mobile(TM) technology provides portable, reliable wastewater treatment in some of the world's most remote places. AdvanTex Treatment Systems can be configured to address a ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.
