

Solar inverters surpass those of the United States

How big is the solar inverter market?

The global solar inverter market size was reached at US\$8.12 billion in 2021 and is anticipated to reach around US\$16.88 billion by 2030. How much is the CAGR of solar inverter market?

Which region will dominate the solar (PV) inverter market?

North America is expected to develop at the fastest rate during the forecast period. The U.S. dominated the solar (PV) inverter market in North America region. The U.S. is dominating the solar (PV) inverter market in North America region. Since few years, the region has seen substantial growth in the sales of central inverter and string inverter.

What is driving the global solar (PV) inverter market?

All of these aforementioned trends and factors are driving the growth of the global solar (PV) inverter market over the projected period. The central inverter segment dominated the market with share of 49.5% in 2021. The central solar (PV) inverter is widely applicable in industries.

Which segment dominated the solar (PV) inverter market in 2021?

In 2021, the on-grid segment dominated the solar (PV) inverter market. This is due to growing investments in the electricity and power generation. The on-grid solar (PV) inverter is cost effective in nature. The on-grid solar (PV) inverters are mostly installed in residential areas.

The US Solar Inverter Market, is expected to reach USD 3.38 Billion in 2030 by growing at a CAGR of 11.8%.

US Solar Inverter Market to Reach USD 3771.84 Million with CAGR of 8.02% By 2035, USA Solar Inverter Market Analysis By Type, By System Type and By Application | United States Solar Inverter ...

The global solar inverter market size was valued USD 11.99 billion in 2024 and is predicted to surpass around USD 25.81 billion by 2034, growing at a CAGR of 7.97% from 2025 to ...

High Initial Costs One of the primary restraints affecting the North America PV inverter market is the high initial costs associated with the installation of solar energy systems, including PV ...

United States Solar PV Inverters Market and Canada is investing in solar infrastructure to reduce dependence on fossil fuels and increase energy security. Federal and state-level policies, ...

The U.S. Solar Inverter Market size is USD 1.40 bn through 2023, highlighting market forecast, industry outlook, and key players. Gain insights on market share, revenue, and strategic insights.

North America Solar Inverter Market size was USD 4204.89 million in 2024 and will expand at a compound annual growth rate (CAGR) of 4.2% from 2024 to 2031.

Solar inverters surpass those of the United States

The US Solar Inverter market size is expected to grow from US\$ 825.86 million in 2022 and is expected to reach US\$ 2,773.99 million by 2030; it is estimated to record a CAGR of 12.8% from 2022 to 2030.

The North American solar inverter market comprises two key players: the United States of America and Canada. Over the past decade, the region has experienced strong growth, driven by ...

The pv inverter market in the United States is expected to reach a projected revenue of US\$ 8,944.6 million by 2030. A compound annual growth rate of 19.6% is expected of the United States pv ...
