

State Council Photovoltaic Energy Storage

State activity in adopting or increasing renewable electricity standards and voluntary goals that require utilities, municipalities and electric cooperatives to sell a specified percentage or amount of ...

These terms describe various ways states may set an intention to attain a specified level of energy storage deployment by a specific date, and the role of regulated electric utilities in helping realize that intention.

The whitepaper outlines policy recommendations to open markets for storage development, build financial support, grow a domestic storage supply chain, and progress long-duration storage technology.

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable energy sources. Currently 23 ...

The Building Energy Efficiency Standards (Energy Code) include requirements for solar photovoltaic (PV) systems, solar-ready design, battery energy storage systems (BESS), and BESS-ready infrastructure. A ...

An overview of Energy Storage Targets across 50 U.S. States, with state-by-state policy progress, key resources, and model rules.

ishing decarbonization goals and programs. It also summarizes findings from a 2022 survey of energy storage developers, and it provides a "deeper dive" into key state energy storage policy priorities and the challenges ...

States that have adopted incentives for energy storage development have seen notable progress in battery storage deployment. These states have encouraged growth through various means such as utility ...

California leads as the top solar state. With over 54 GW of solar installed, enough energy to power over 15 million homes. Texas has the fastest growing solar economy with the largest utility-scale solar and energy ...

ESA is actively working at the state regulatory and legislative level to drive deployment of energy storage. Our policy efforts fall into three policy categories: increase revenues, enhance competition, and ensure access.
