

This year s latest solar generator

Which solar generator is right for You?

Whether you want something compact for camping or a larger unit for emergency home backup, these solar generators deliver the goods. The Jackery Solar Generator 2000 Plus is a fast-charging portable power station that can be bundled with SolarSaga 200W panels for recharging off-grid.

Which solar generator should I buy?

If you need a larger, potentially expandable solar generator that offers a good dose of portability, it can't be beat. The Anker Power Station 767 solar generator's high capacity and fast charging make this long-lasting battery a solid everyday driver.

Can a solar generator power any device?

To find out if a solar generator will be able to power any given device, you'll need to know how much power the device draws and how much power the solar generator can push out. If a solar generator, say the Bluetti AC200P, has an output of 2,000 watts, it can push that amount of power continuously.

What are the best solar generator brands?

ALLPOWERS is another one of the best solar generator brands for those looking to save money, as its cheapest kit is priced at \$249. Our choice, the 2,000W power station is a good option for trips off-grid; it can charge 11 devices at a time and it's rated IP66, so it should survive strong water jets.
