

Yang Daming Solar Generator

A fully integrated flexible solar-thermoelectric generator is demonstrated utilizing Ag₂Se thin films as both efficient photothermal absorber and thermoelectric generators. The device delivers ...

Whether you're seeking a highly portable option or need one that's heavy-duty enough for extended use, these are the best solar generators we've tested and researched to date.

Daming Yang PhD candidate Name Mr. D. Yang MSc Telephone 071 5272727 E-mail dyang@strw.leidenuniv ORCID iD 0000-0002-6769-0910 Contact Publications Ancillary activities

Project Type:Commercial and Industrial rooftop PV system;Total Capacity: 4MW

Traveling-wave thermoacoustic electric generator is promising in solar power generation and energy recovering due to its high efficiency, high reliability, and capability of utilizing low-grade...

Currently, I am working on an Astronomy master program in Leiden University in the Netherlands, from 2021 Spring to 2023 Spring. My master project on high-z quasar at Leiden is advised by Prof. Joseph ...

Purpose Soil erosion drastically perturbs the global carbon cycle, and splash erosion is the first critical stage of soil erosion by water. Thus, studying the soil organic carbon (SOC) dynamic...
